

KENNETH O'HANLON

CLARKSTON, MI | 248-534-0606

KEN.JACOB.OHANLON@GMAIL.COM

Full Stack Software Engineer with 4+ years of progressive experience in Java/Spring Boot and React. Proven track record at Ford Motor Company in architecting cloud-native web services, modernizing legacy systems, and leading cross-functional teams. Expert in building resilient APIs and CI/CD pipelines to support high-scale vehicle data services.

TECHNICAL SKILLS

CERTIFICATIONS

Google Cloud Professional Cloud Developer

LANGUAGES & FRAMEWORKS

Java, Spring Boot, Spring Cloud, Junit, JavaScript, React

CLOUD & DEVOPS TOOLS

Google Cloud Platform (GCP), Kubernetes (OpenShift), Docker, Pub/Sub, Cloud Run, CI/CD, Tekton, Jenkins, Terraform

DATA & STORAGE

PostgreSQL, Firestore, Memorystore for Redis, Cloud Storage

METHODOLOGIES

Test-Driven Development (TDD), Agile/Scrum, GraphQL, RESTful API Design, Event-Driven Architecture (EDA), Root Cause Analysis (RCA)

EXPERIENCE

SOFTWARE ENGINEER

JANUARY 2022 - PRESENT

Ford Motor Company | Dearborn, MI

- Architected Tekton CI/CD pipelines for deploying Spring Boot services to OpenShift and GCP Cloud Run.
- Engineered resilient GCP/OpenShift microservices and batch systems handling >1 million daily requests.
- Streamlined application provisioning by integrating Memorystore for Redis, Cloud Storage, and PostgreSQL into a customizable Spring Boot template.
- Built and integrated end-to-end PII protection mechanisms for Ford vehicle data, strengthening data protection posture and enabling secure analytics at scale.
- Led the redesign of monolithic COBOL workflows into modular GraphQL services, enabling seamless integration with modern frontend and backend systems.
- Achieved >85% code coverage across all applications through Test-Driven Development (TDD) practices.

MS&S INTERN – SOFTWARE ENGINEER

JUNE 2021 – SEPTEMBER 2021

Ford Motor Company | Dearborn, MI

- Optimized existing Alteryx workflows and Java-based data services, reducing file batch processing time by 20%.
- Developed a Java application POC using Spring frameworks to automate metadata cataloging for image data.

POWER PLATFORM & FRONTEND DEVELOPER

NOVEMBER 2020 – JUNE 2021

Masco Corporation | Livonia, MI

- Developed custom business applications and React-based components to manage transactions and inventories.
 - Automated complex business workflows via Power Automate, eliminating 500 annual hours of manual tasks.
 - Led a consultant team through modernizing several applications, accelerating the project timeline by 2 months.
-

EDUCATION

Bachelor of Science in Computer Science | Wayne State University | GPA: 3.96/4.0 | Dec 2021

Bachelor of Science in Chemical Engineering | University of Michigan – Ann Arbor | April 2017
